Biofuels Statutory Citations

STATE OF NEW JERSEY

This compilation of state statutory citations focuses predominantly on biofuels laws in effect January 1, 1970 through December 31, 2013. It is intended to serve as a researcher-friendly inventory of state laws by providing the formal title of relevant legislation, the standard legal citation for each statute, the applicability of the statute (ethanol, biodiesel, or both), and a brief description of the law. Some statutes and regulations listed do not specifically relate to biofuels, but are included because of their complementary relationship to the evolution of biofuels law in the state. These statutes are placed in reverse chronological order using the date of the most recent amendment to the statute. Many biofuels laws were enacted as amendments to previously passed laws.
