State NPDES Authority Statutes: Mississippi

[Miss. Code Ann. § 49-17-17](#)

[Miss. Code Ann. § 49-17-29](#)

Current through the 2022 legislative session.

§ 49-17-17. Commission's Duties.

The commission shall have and may exercise the following powers and duties:

- (a) General supervision of the administration and enforcement of Sections 49-17-1 through 49-17-43 and Sections 17-17-1 through 17-17-47, and all rules and regulations and orders promulgated thereunder;
- (b) To develop comprehensive programs for the prevention, control and abatement of new or existing pollution of the air and waters of the state;
- (c) To advise, consult, cooperate, or enter into contracts, grants and cooperative agreements with any federal or state agency or subdivision thereof, other states and interstate agencies, or any public or private institution located inside or outside the State of Mississippi, and with affected groups, political subdivisions, and industries in furtherance of carrying out the provisions of Sections 49-17-1 through 49-17-43 and shall have the authority to enter into compacts with any other state or states for the purpose of achieving the objectives of such sections with respect to air and waters, or to authorize the executive director with the approval of the commission to exercise any of the aforementioned powers;
- (d) To administer funds allocated to the state's water and air pollution abatement grant program, to accept and administer loans and grants from the federal government and from other sources, public or private, for carrying out any of its functions, which loans and grants shall not be expended for other than the purposes for which provided;
- (e) To encourage, participate in, or conduct studies, investigations, research and demonstrations relating to air and water quality and pollution and causes, prevention, control and abatement as it may deem advisable and necessary for the discharge of its duties under Sections 49-17-1 through 49-17-43; to make funds available from the water pollution abatement grant fund by means of advances to political subdivisions in this state in an amount not to exceed one percent (1%) of the estimated project cost as approved by and under such rules and regulations as adopted by the commission for the preparation of project planning reports and feasibility analyses; and to exercise such supervision as it may deem advisable and necessary for the discharge of its duties under Sections 49-17-1 through 49-17-43;

- (f) To require the repayment of funds made available to a political subdivision under subsection (e) above to the water pollution abatement grant fund prior to the receipt of any other funds by any political subdivision providing services to the area and receiving funds provided under Sections 49-17-1 through 49-17-43; any funds made available to any political subdivisions providing services to the area and receiving funds under the provisions of said sections shall be repaid in the same manner as are other funds made available to the political subdivisions under the provisions of said sections;
- (g) To collect and disseminate information relating to air and water quality and pollution and the prevention, control, supervision and abatement thereof;
- (h) To adopt, modify or repeal and promulgate ambient air and water quality standards and emissions standards for the state under such conditions as the commission may prescribe for the prevention, control and abatement of pollution;
- (i) To adopt, modify, repeal, and promulgate, after due notice and hearing, and, where not otherwise prohibited by federal or state law, to make exceptions to and grant exemptions and variances from, and to enforce rules and regulations implementing or effectuating the powers and duties of the commission under Sections 49-17-1 through 49-17-43 and Sections 17-17-1 through 17-17-47, and as the commission may deem necessary to prevent, control and abate existing or potential pollution;
- (j) To issue, modify, or revoke orders (1) prohibiting, controlling or abating discharges of contaminants and wastes into the air and waters of the state; (2) requiring the construction of new disposal systems, or air-cleaning devices, or any parts thereof or the modification, extension or alteration of existing disposal systems, or air-cleaning devices, or any parts thereof, or the adoption of other remedial measures to prevent, control or abate air and water pollution; and (3) setting standards of air or water quality or evidencing any other determination by the commission under Sections 49-17-1 through 49-17-43;
- (k) To hold such hearings, to issue notices of hearing and subpoenas requiring the attendance of such witnesses and the production of such evidence, to administer oaths, and to take such testimony as the commission deems necessary;
- (l) To require the prior submission of plans, specifications and other data relative to, and to inspect the construction of, disposal systems, or air-cleaning devices, or any part thereof, in connection with the issuance of such permits or approval as are required by Sections 49-17-1 through 49-17-43;
- (m) To require proper maintenance and operation of disposal systems, or air-cleaning devices; and to require the installation and operation of monitoring devices or methods as may be deemed necessary and the maintenance and submission of monitoring and operating records as may be prescribed;
- (n) To exercise all incidental powers necessary to carry out the purposes of Sections 49-17-1 through 49-17-43 and Sections 17-17-1 through 17-17-47; and

(o) To delegate in such manner as it sees fit the duties and powers relating to air and water quality and pollution control to the agency members presently engaged in the several fields of water or air control or pollution. In cases of difference of opinion between such agencies as to their respective field of operation, the commission shall delegate said responsibility to the proper agency, and the commission's action therein shall be final.

Nothing contained in this section shall be deemed to grant to the commission any jurisdiction or authority to make any rule or regulation, recommendation or determination or to enter any order with respect to air conditions existing solely within the property boundaries of commercial and industrial plants, works, or shops or to affect the relations between employers and employees with respect to or arising out of any air condition.

§ 49-17-29. Air and Water Permits.

(1)

(a) Except as in compliance with paragraph (b) of this subsection, it is unlawful for any person to cause pollution of the air in the state or to place or cause to be placed any wastes or other products or substances in a location where they are likely to cause pollution of the air. It is also unlawful to discharge any wastes, products or substances into the air of the state which exceed standards of performance, hazardous air pollutant standards, other emission standards set by the commission, or which reduce the quality of the air below the air quality standards or increments established by the commission or prevent attainment or maintenance of those air quality standards. Any such action is hereby declared to be a public nuisance.

(b) It is unlawful for any person to build, erect, alter, replace, use or operate any equipment which will cause the issuance of air contaminants unless that person holds a permit from the Permit Board (except repairs or maintenance of equipment for which a permit has been previously issued), or unless that person is exempted from holding a permit by a regulation promulgated by the commission. Concentrated animal feeding operations may be a source or a category of sources exempted under this paragraph. However, no new or existing applications relating to swine concentrated animal feeding operations within a county shall be exempted from regulations and ordinances which have been duly passed by the county's board of supervisors and which are in force on June 1, 1998.

(2)

(a) Except as in compliance with paragraph (b) of this subsection, it is unlawful for any person to cause pollution of any waters of the state or to place or cause to be placed any wastes in a location where they are likely to cause pollution of any waters of the state. It is also unlawful to discharge any wastes into any waters of the state which reduce the quality of those waters below the water quality standards established by the commission; or to violate any applicable pretreatment standards or limitations,

technology-based effluent limitations, toxic standards or any other limitations established by the commission. Any such action is declared to be a public nuisance.

(b) It is unlawful for any person to carry on any of the following activities, unless that person holds a current permit for that activity from the Permit Board as may be required for the disposal of all wastes which are or may be discharged into the waters of the state, or unless that person is exempted from holding a permit by a regulation promulgated by the commission:

(i) the construction, installation, modification or operation of any disposal system or part thereof or any extension or addition thereto, including, but not limited to, systems serving agricultural operations;

(ii) the increase in volume or strength of any wastes in excess of the permissive discharges specified under any existing permit;

(iii) the construction, installation or operation of any industrial, commercial or other establishment, including irrigation projects or any extension or modification thereof or addition thereto, the operation of which would cause an increase in the discharge of wastes into the waters of the state or would otherwise alter the physical, chemical or biological properties of any waters of the state in any manner not already lawfully authorized;

(iv) the construction or use of any new outlet for the discharge of any wastes into the waters of the state. However, no new or existing applications relating to swine concentrated animal feeding operations within a county shall be exempted from regulations and ordinances which have been duly passed by the county's board of supervisors and which are in force on June 1, 1998.

(3)

(a) Except as otherwise provided in this section, the Permit Board created by Section 49-17-28 shall be the exclusive administrative body to make decisions on permit issuance, reissuance, denial, modification or revocation of air pollution control and water pollution control permits and permits required under the Solid Wastes Disposal Law of 1974 (Title 17, Chapter 17), and all other permits within the jurisdiction of the Permit Board. After consideration of alternative waste treatment technologies available to control air and water pollution and odor, including appropriate siting criteria, the commission may promulgate regulations establishing conditions, limitations and exemptions under which the Permit Board shall make these decisions. Regulations promulgated by the commission which establish exemptions as authorized under this section shall apply to any applicable facility in operation on the effective date of that regulation and to any applicable facility constructed or operated after the effective date of that regulation. The Permit Board may issue multiple permits for the same facility or operation simultaneously or in the sequence that it deems appropriate consistent with the commission's regulations. Except as otherwise provided in this paragraph, the

Permit Board, under any conditions that the board may prescribe, may authorize the Executive Director of the Department of Environmental Quality to make decisions on permit issuance, reissuance, denial, modification or revocation. The executive director shall not be authorized to make decisions on permit issuance, reissuance, denial, modification or revocation for a commercial hazardous waste management facility or a solid waste management permit for a municipal solid waste landfill or incinerator. A decision by the executive director shall be a decision of the Permit Board and shall be subject to formal hearing and appeal as provided in this section. The executive director shall report all permit decisions to the Permit Board at its next regularly scheduled meeting and those decisions shall be recorded in the minutes of the Permit Board. The decisions of the Permit Board shall be recorded in minutes of the Permit Board and shall be kept separate and apart from the minutes of the commission. The decision of the Permit Board or the executive director to issue, reissue, deny, modify or revoke permits shall not be construed to be an order or other action of the commission.

(b) The Executive Director of the Department of Environmental Quality shall also be the Executive Director of the Permit Board and shall have available to him, as Executive Director of the Permit Board, all resources and personnel otherwise available to him as executive director of the department.

(c) All persons required to obtain an air pollution control or water pollution control permit, a permit under the Solid Wastes Disposal Law of 1974 (Title 17, Chapter 17) or any other permit within the jurisdiction of the Permit Board shall make application for that permit with the Permit Board. The Permit Board, under any regulations as the commission may prescribe, may require the submission of those plans, specifications and other information as it deems necessary to carry out Sections 49-17-1 through 49-17-43 and Title 17, Chapter 17, or to carry out the commission's regulations adopted under those sections. The Permit Board, based upon any information as it deems relevant, shall issue, reissue, deny, modify or revoke air pollution control or water pollution control permit or permits required under the Solid Wastes Disposal Law of 1974 (Title 17, Chapter 17) or any other permit within the jurisdiction of the Permit Board under any conditions as it deems necessary that are consistent with the commission's regulations. The Permit Board's action of issuance, reissuance, denial, modification or revocation of a permit as recorded in its minutes shall constitute a complete decision of the board. All permits issued by the Permit Board shall remain in full force and effect until the board makes a final determination regarding any reissuance, modification, or revocation thereof. The Permit Board shall take action upon an application within one hundred eighty (180) days following its receipt in the board's principal office. No action which affects revocation of an existing permit shall take effect until the thirty (30) days mentioned in paragraph (4)(b) of this section has expired or until a formal hearing as prescribed in that paragraph is held, whichever is later.

(d) The Permit Board may adopt rules of practice and procedure governing its proceedings that are consistent with the commission's regulations. All hearings in

connection with permits issued, reissued, denied, modified or revoked and all appeals from decisions of the Permit Board shall be as provided in this section.

(e) Upon any conditions that are consistent with the commission's regulations and subject to those procedures for public notice and hearings as provided by law, not inconsistent with federal law and regulations, the Permit Board may issue general permits and, where appropriate, may consolidate multiple permits for the same facility or operation into a single permit.

(f) The Permit Board shall not issue any permit for a new swine concentrated animal feeding operation or the expansion of an existing swine concentrated animal feeding operation before January 1, 2000, unless the department received the application for that operation's new or modified permit before February 28, 1998, or except as provided in this paragraph (f). In issuing or modifying any permit for which the department received an application before February 28, 1998, the Permit Board shall apply those siting criteria adopted or used by the commission before February 28, 1998, unless federal law or regulations require more stringent criteria. The moratorium established in this paragraph shall not apply to the issuance of any permit for a new swine concentrated animal feeding operation or the expansion of an existing swine concentrated animal feeding operation that uses an animal waste management system which the applicant demonstrates to the Permit Board is innovative in significantly reducing the effects of the operation on the public health, welfare or the environment and which is approved by the Permit Board. The Permit Board shall not issue or modify more than five (5) permits under this innovative animal waste management system technology exemption to the moratorium.

(g) Each applicant for a permit for a new outlet for the discharge of wastes into the waters of the state who is required to obtain a certificate of public convenience and necessity from the Public Service Commission for such wastewater system shall submit financial and managerial information as required by the Public Utilities Staff. Following review of that information, the Executive Director of the Public Utilities Staff shall certify in writing to the executive director of the department, the financial and managerial viability of the system if the Executive Director of the Public Utilities Staff determines the system is viable. The Permit Board shall not issue the permit until the certification is received.

(4)

(a) Except as required by this section, before the issuance, reissuance, denial, modification or revocation of any air pollution control or water pollution control permit, permit required under the Solid Wastes Disposal Law of 1974 (Title 17, Chapter 17) or any other permit within its jurisdiction, the Permit Board, in its discretion, may hold a public hearing or meeting to obtain comments from the public on its proposed action. Before the issuance, reissuance, denial, modification pertaining to the expansion of a facility, transfer or revocation of a permit for a commercial hazardous waste

management facility or a solid waste management permit for a commercial municipal solid waste landfill or incinerator, the Permit Board shall conduct a public hearing or meeting to obtain comments from the public on the proposed action. That hearing or meeting shall be informal in nature and conducted under those procedures as the Permit Board may deem appropriate consistent with the commission's regulations.

(b) Within thirty (30) days after the date the Permit Board takes action upon permit issuance, reissuance, denial, modification or revocation, as recorded in the minutes of the Permit Board, any interested party aggrieved by that action may file a written request for a formal hearing before the Permit Board. An interested party is any person claiming an interest relating to the property or project which is the subject of the permit action, and who is so situated that the person may be affected by the disposition of that action.

The Permit Board shall fix the time and place of the formal hearing and shall notify the permittee of that time and place.

In conducting the formal hearing, the Permit Board shall have the same full powers as to subpoenaing witnesses, administering oaths, examining witnesses under oath and conducting the hearing, as is now vested by law in the Mississippi Public Service Commission, as to the hearings before it, with the additional power that the Executive Director of the Permit Board may issue all subpoenas at the instance of the Permit Board or at the instance of any interested party. Any subpoenas shall be served by any lawful officer in any county to whom the subpoena is directed and return made thereon as provided by law, with the cost of service being paid by the party on whose behalf the subpoena was issued. Witnesses summoned to appear at the hearing shall be entitled to the same per diem and mileage as witnesses attending the circuit court and shall be paid by the person on whose behalf the witness was called. Sufficient sureties for the cost of service of the subpoena and witness fees shall be filed with the Executive Director of the Permit Board at the time that issuance of the subpoena is requested. At a hearing, any interested party may present witnesses and submit evidence and cross-examine witnesses.

The Permit Board may designate a hearing officer to conduct the formal hearing on all or any part of the issues on behalf of the Permit Board. The hearing officer shall prepare the record of the formal hearing conducted by that officer for the Permit Board and shall submit the record to the Permit Board.

Upon conclusion of the formal hearing, the Permit Board shall enter in its minutes the board's decision affirming, modifying or reversing its prior decision to issue, reissue, deny, modify or revoke a permit. The Permit Board shall prepare and record in its minutes findings of fact and conclusions of law supporting its decision. That decision, as recorded in its minutes with its findings of fact and conclusions of law, shall be final unless an appeal, as provided in this section, is taken to chancery court within twenty (20) days following the date the decision is entered in the board's minutes.

(c) Within twenty (20) days after the date the Permit Board takes action upon permit issuance, reissuance, denial, modification or revocation after a formal hearing under this

subsection as recorded in the minutes of the Permit Board, any person aggrieved of that action may appeal the action as provided in subsection (5) of this section.

(5)

(a) Appeals from any decision or action of the Permit Board shall be only to chancery court as provided in this subsection.

(b) Any person who is aggrieved by any decision of the Permit Board issuing, reissuing, denying, revoking or modifying a permit after a formal hearing may appeal that decision within the period specified in subsection (4)(c) of this section to the chancery court of the county of the situs in whole or in part of the subject matter. The appellant shall give a cost bond with sufficient sureties, payable to the state in the sum of not less than One Hundred Dollars (\$100.00) nor more than Five Hundred Dollars (\$500.00), to be fixed by the Permit Board and to be filed with and approved by the Executive Director of the Permit Board, who shall forthwith certify the filing of the bond together with a certified copy of the record of the Permit Board in the matter to the chancery court to which the appeal is taken, which shall thereupon become the record of the cause. An appeal to the chancery court as provided in this section shall not stay the decision of the Permit Board. The aggrieved party may, within twenty (20) days following the date the board's decision after a formal hearing is entered on the board's minutes, petition the chancery court for an appeal with supersedeas and the chancellor shall grant a hearing on that petition. Upon good cause shown, the chancellor may grant that appeal with supersedeas. If granted, the appellant shall be required to post a bond with sufficient sureties according to law in an amount to be determined by the chancellor. Appeals shall be considered only upon the record as made before the Permit Board. The chancery court shall always be deemed open for hearing of an appeal and the chancellor may hear the same in termtime or in vacation at any place in the chancellor's district, and the appeal shall have precedence over all civil cases, except election contests. The chancery court shall review all questions of law and of fact. If no prejudicial error is found, the matter shall be affirmed. If prejudicial error is found the decision of the board shall be reversed and the chancery court shall remand the matter to the Permit Board for appropriate action as may be indicated or necessary under the circumstances. Appeals may be taken from the chancery court to the Supreme Court in the manner as now required by law, except that if a supersedeas is desired by the party appealing to the chancery court, that party may apply for a supersedeas to the chancellor of that court, who shall award a writ of supersedeas, without additional bond, if in the chancellor's judgment material damage is not likely to result thereby; but otherwise, the chancellor shall require a supersedeas bond as the chancellor deems proper, which shall be liable to the state for any damage.
