

States' Biofuels Statutes

STATE OF OHIO

This project was undertaken in partnership with the USDA Office of the Chief Economist, The Office of Energy Policy and New Uses. For information on the full project, visit [States' Biofuels Statutory Citations](#).

Current through the 2013 Legislative Session of the Ohio General Assembly.

125.834 Alternative fuel capability requirements for owned or leased vehicles

(A) The department of administrative services shall ensure that all new motor vehicles acquired on and after July 1, 2006, by the state for use by state agencies under section 125.832 of the Revised Code are capable of using alternative fuels. A state agency that is acquiring new motor vehicles under division (G)(1) of section 125.832 of the Revised Code shall report annually, in a manner prescribed by the director of administrative services, the number of new motor vehicles acquired by the state agency and the number of those motor vehicles that are capable of using alternative fuel.

(B) The department shall not purchase or lease, or authorize the purchase or lease by a state agency of, any motor vehicles that are incapable of using alternative fuels, unless one or more of the following apply:

(1) The department or state agency is unable to acquire or operate motor vehicles within the cost limitations described in rules adopted under division (D) of this section.

(2) The use of alternative fuels would not meet the energy conservation and exhaust emissions criteria described in rules adopted under division (D) of this section.

(3) An emergency exists or exigent circumstances exist, as determined by the department of administrative services.

(C) Not later than ninety days after October 12, 2006, all motor vehicles owned or leased by the state that are capable of using an alternative fuel shall use an alternative fuel if the fuel is reasonably available at a reasonable price. Subject to division (D) of this section, motor vehicles owned or leased by the state shall use at least sixty thousand gallons of E85 blend fuel per calendar year by January 1, 2007, with an increase of five thousand gallons per calendar year each calendar year thereafter, and at least one million gallons of blended biodiesel per calendar year by January 1, 2007, with an increase of one hundred thousand gallons per calendar year each calendar year thereafter. The director of administrative services, under Chapter 119. of the Revised Code, shall adopt rules to implement the fuel use requirement of this

division, and the directors and heads of all state departments and agencies shall issue a directive to all state employees who use state motor vehicles informing them of the fuel use requirement. The directive shall instruct state employees to purchase alternative fuels at retail fuel facilities whenever possible.

As used in this division, “motor vehicle” has the same meaning as in section 125.831 of the Revised Code and also includes all on-road and off-road vehicles powered by diesel fuel, regardless of gross vehicle weight.

(D) The director of administrative services shall adopt and may amend, under Chapter 119. of the Revised Code, rules that include both of the following:

(1) Requirements for state agencies in the procurement of alternative fuels and motor vehicles capable of using alternative fuels, and cost limitations for the acquisition and operation of such vehicles;

(2) Energy conservation and exhaust emissions criteria for motor vehicles capable of using alternative fuels.
