

## States' Biofuels Statutes

### STATE OF WYOMING

*This project was undertaken in partnership with the USDA Office of the Chief Economist, The Office of Energy Policy and New Uses. For information on the full project, visit [States' Biofuels Statutory Citations](#).*

*Current through the 2013 Legislative Session of the Wyoming General Assembly.*

#### **§ 40-7-103. Board to promulgate standards**

(a) The board shall promulgate rules and standards of quality for products to implement this act, including the adoption of ASTM or other appropriate standards or specifications and definitions for products not defined in this chapter, subject to the following:

(i), (ii) Repealed by [Laws 2009, ch. 130, § 2](#).

(iii) Fuel oil ASTM grades No. 1 and No. 2 shall have a flash point not lower than one hundred fifteen degrees Fahrenheit (115°F);

(iv) Fuel oil ASTM grades No. 4, No. 5 and No. 6 shall not contain more than one and one-half percent (1.5%) sulfur by weight;

(v) Kerosene shall:

(A), (B) Repealed by [Laws 2009, ch. 130, § 2](#).

(C) Have a flash point not lower than one hundred fifteen degrees Fahrenheit (115°F);

(D) Meet the standards set forth in ASTM D3699.

(vi) Any gasoline, gasohol or diesel fuel sold in the wholesale or retail market place that contains any oxygenate, biofuel or nonrefined product shall be clearly labeled with the name and maximum percentage by volume of any ethanol or other oxygenate, biofuel or nonrefined product.
