

Climate Change Statutes

STATE OF CALIFORNIA

This project was undertaken in partnership with the USDA Office of the Chief Economist, The Office of Energy Policy and New Uses. For information on the full project, visit [Climate Change Statutes](#).

Current through the 2010 Legislative Session of the California State Assembly.

California Food and Agricultural Code

§ 5260.

The Legislature hereby finds and declares all of the following:

- (a) Global travel, global trade, and climate change are introducing invasive animals, plants, insects, and plant and animal diseases to California.
- (b) The State of California should undertake advance planning on whether and how to address those invasive animals, plants, insects, and plant and animal diseases that are a threat to the state's agriculture, environment, or economy.
- (c) The Legislature fully recognizes that any prediction of which invasive pests will enter California cannot be precise because of the many entry mechanisms.
