The announced level shall be based on the latest information and statistics available at the time of the announcement.

WHEAT AND FEED GRAIN EXPORT CERTIFICATE PROGRAMS

SEC. 1006. Effective for the 1986 through 1990 crops of wheat and feed grains, the Agricultural Act of 1949 (7 U.S.C. 1421 et seq.) is amended by inserting after section 107F (as added by section 1005 of this Act), the following new section:

7 USC 1445b-5.

"SEC. 107F. (a)(1) The Secretary may establish a program, applicable to any of the 1986 through 1990 crops of wheat or feed grains, to provide incentives for the export of any of such crops of wheat and feed grains from private stocks. The program for any such crop established under this subsection by the Secretary shall include the following terms:

Loans.

"(A) The Secretary shall issue wheat or feed grain export certificates to producers to whom the Secretary makes loans and payments under section 107D or 105C, respectively, for a crop if such producers comply with the terms and conditions of the program for such crop.

Ante, pp. 1383,
1395.

"(B) Each such certificate shall bear a monetary denomination and a designation specifying a quantity of the crop of the commodity involved, selected by the Secretary.

“(C) The aggregate quantity of wheat or feed grains specified in all export certificates distributable to eligible producers of the crop involved shall be equal to—

“(i) the aggregate amount of wheat or feed grains produced by producers participating in the program for the crop under section 107D or 105C, as determined by multiplying the acreage planted by each such producer for harvest times the farm program payment yield for the commodity, times

Ante, pp. 1383,
1395.

“(ii) an export production factor.

For purposes of this subparagraph, the export production factor for a crop shall be determined by the Secretary by dividing the quantity of such crop harvested domestically that the Secretary estimates will not be used domestically and will be available for export (excluding the portion of the crop expected to be added to carryover stocks) during the marketing year for such crop by the quantity of such crop that the Secretary estimates will be harvested domestically.

“(D) Wheat or feed grain export certificates shall be distributed among eligible producers in a manner that will ensure that each eligible producer receives certificates having an aggregate face value that represents an equal rate of return per unit of wheat or feed grains produced by such producer for such crop. For purposes of determining such rate of return, the Secretary shall take into consideration regional variations in the costs incurred by producers to market the commodity (including transportation costs).

“(E) An export certificate issued under this subsection shall be redeemed by the Secretary for a cash amount equal to the monetary denomination on such certificate (or, at the option of the Secretary, a quantity of the commodity involved having a current fair market value equal to such amount) only on presentation by a holder who exports a quantity of the crop involved (including processed wheat or feed grains) equal to the quantity designated in the certificate and only if the Secretary has not redeemed previously an export certificate issued under this subsection presented in connection with the particular wheat or feed grains so exported.

“(2) The Secretary shall carry out this subsection through the Commodity Credit Corporation. If sufficient funds are available to the Corporation, there shall be expended to carry out this subsection with respect to the export of the crop of wheat or feed grains involved an amount not less than the product of multiplying—

“(A) 21 cents for wheat, 11 cents for corn, and such amounts for grain sorghums, oats, and, if designated by the Secretary, barley as the Secretary determines fair and reasonable in relation to the amount specified for corn, times

“(B) the aggregate of the wheat or feed grain acreage planted to the commodity for harvest by producers participating in the program for the crop with respect to which deficiency payments are available under section 107D or 105C, times

“(C) the average of the program yields for the crop.

“(3) Funds expended to carry out export certificate programs established under this subsection shall be in addition to, and not in place of, funds authorized by any other law to be expended to finance or encourage the export of wheat or feed grains.

“(4) For purposes of facilitating the transfer of export certificates under this subsection, the Commodity Credit Corporation may buy and sell certificates in accordance with regulations prescribed by the Secretary.

“(b)(1) Effective for each of the 1986 through 1990 crops of wheat or feed grains, the Secretary may issue to eligible producers (who, for purposes of this subsection, are producers of wheat or feed grains participating in the program under this Act for such crop who meet the requirements of paragraph (2)) export marketing certificates, denominated in bushels of wheat or feed grains, as applicable, for the crop, which shall be used, under such terms and conditions as the Secretary may prescribe consistent with the provisions of this subsection, as follows:

“(A) Not later than 3 months before the beginning of the marketing year for a crop of wheat or feed grains, the Secretary may issue to eligible producers that plant at least 50 percent of the farm’s wheat or feed grain crop acreage base for such crop, export marketing certificates to be applicable to such marketing year that, in the aggregate, shall equal the quantity of the commodity the Secretary estimates will be exported during the marketing year. Each such eligible producer shall receive certificates for a quantity of the commodity that bears the same ratio to the quantity of estimated exports as the producer’s crop acreage base for that crop of the commodity bears to the aggregate total of all such eligible producers’ crop acreage bases for that crop, rounded upward to the nearest full bushel.

“(B) The denomination of export marketing certificates shall be 1 bushel (with no accompanying cash face value), except that the Secretary may issue certificates in multiples of such denomination, and any certificate in the multiple of such denomination, may be exchanged by the producer, at the county Agricultural Stabilization and Conservation Service office, for certificates representing an equivalent quantity of the commodity in different multiples, to facilitate the operation of the program under this subsection. Each export marketing certificate shall designate the producer by name and the crop involved.

“(C) If 7 months after the beginning of the marketing year for the crop, the Secretary determines that the amount of the commodity that will be exported during the marketing year for that crop will exceed the aggregate quantity of the commodity represented by all the export marketing certificates so issued, the Secretary may issue additional export marketing certificates to producers that initially received certificates for the crop sufficient to cover the additional exports, such certificates to be apportioned among such producers so that producer receives the same portion of the additional certificates issued that the producer received of the export certificates initially issued for the crop, as provided in subparagraph (A), rounded upward to the nearest full bushel.

“(D) Producers may convey export marketing certificates issued under this subsection to purchasers of the commodity involved sold by the producers at any time prior to the end of the marketing year for the crop described in the certificate. If a producer has less wheat or feed grains to sell than the quantity represented by the export marketing certificates issued to the producer, because of reduced production or other reason or

because, in the case of additional certificates issued under subparagraph (C), the producer had disposed of the producer's wheat or feed grains prior to the issuance of such additional certificates, the producer, at any time prior to the end of the marketing year for the crop involved, may sell the extra export marketing certificates to any person for such price as agreed on by the producer and purchaser. Any certificate may be reconveyed without restriction.

“(2) To be eligible to receive export certificates under this subsection for a crop of wheat or feed grains, a producer of such commodity must participate in the program under this title for such crop, and—

“(A) if there is no acreage limitation or set-aside in effect for the crop, limit the acreage on the farm planted to the crop for harvest to the farm's wheat or feed grain crop acreage base, as applicable;

“(B) if an acreage limitation is in effect for the crop, limit the acreage on the farm planted to the crop for harvest to the farm's wheat or feed grain crop acreage base, as applicable, reduced to the extent required under the acreage limitation program, and comply with any other terms of the acreage limitation program established by the Secretary; or

“(C) if a set-aside program is in effect for the crop, comply with the set-aside and other terms of the set-aside program established by the Secretary.

“(3) Whenever the Secretary issues certificates under this subsection for a crop of wheat or feed grains, no person may export wheat or feed grains or products thereof, from the United States during the marketing year for the crop without surrendering to the Secretary, at the time of export, export marketing certificates for such crop representing the quantity of the commodity being exported or, in the case of wheat or feed grain products, the equivalent quantity of the commodity contained in the products being exported. Persons that fail to comply with the requirements of the preceding sentence shall be subject, for each violation thereof, to a fine of not more than \$25,000 or imprisonment for not to exceed 1 year, or both such fine and imprisonment. This paragraph shall not apply to exports of commodities or products owned by the Federal Government or any agency or instrumentality thereof, nor to commodities or products provided to the exporter by the Commodity Credit Corporation under an export development program.

Prohibitions.

“(4) Any person who falsely makes, issues, alters, forges, or counterfeits any export marketing certificate, or with fraudulent intent possesses, transfers, or uses any such falsely made, issued, altered, forged, or counterfeited export marketing certificate, shall be subject to a fine of not more than \$10,000 or imprisonment of not more than 10 years, or both such fine and imprisonment.

“(5) For purposes of facilitating the transfer of export certificates under this subsection, the Commodity Credit Corporation may buy and sell certificates in accordance with regulations prescribed by the Secretary.”.

DISASTER PAYMENTS FOR 1985 THROUGH 1990 CROPS OF PEANUTS,
SOYBEANS, SUGAR BEETS, AND SUGARCANE

SEC. 1008. Effective only for the 1985 through 1990 crops of peanuts, soybeans, sugar beets, and sugarcane, section 201 of the Agricultural Act of 1949 (7 U.S.C. 1446) (as amended by section 901 of this Act) is further amended by adding at the end thereof the following new subsection:

“(k)(1) If the Secretary determines that the producers on a farm are prevented from planting any portion of the acreage on the farm intended for peanuts, soybeans, sugar beets, or sugarcane to peanuts, soybeans, sugar beets, sugarcane, or other nonconserving crops because of drought, flood, or other natural disaster, or other condition beyond the control of the producers, the Secretary may make a prevented planting disaster payment to the producers in an amount equal to the product obtained by multiplying—

“(A) the number of acres so affected but not to exceed the acreage planted to peanuts, soybeans, sugar beets, or sugarcane for harvest (including any acreage that the producers were prevented from planting to such commodity or to other nonconserving crops in lieu of peanuts, soybeans, sugar beets, or sugarcane because of drought, flood or other natural disaster, or other condition beyond the control of the producers) in the immediately preceding year, by

“(B) 75 percent of the farm program payment yield established by the Secretary, by

“(C) a payment rate equal to 50 percent of the loan and purchase level for the crop.

“(2) If the Secretary determines that because of drought, flood, or other natural disaster, or other condition beyond the

control of the producers, the total quantity of peanuts, soybeans, sugar beets, or sugarcane that the producers are able to harvest on any farm is less than the result of multiplying 60 percent of the farm program payment yield established by the Secretary for such crop by the acreage planted for harvest for such crop, the Secretary may make a reduced yield disaster payment to the producers at a rate equal to 50 percent of the loan and purchase level for the crop for the deficiency in production below 60 percent for the crop.

“(3) The Secretary may make such adjustments in the amount of payments made available under this paragraph with respect to an individual farm so as to assure the equitable allotment of such payments among producers, taking into account other forms of Federal disaster assistance provided to the producers for the crop involved.”.

COST REDUCTION OPTIONS

SEC. 1009. (a) Notwithstanding any other provision of law, whenever the Secretary of Agriculture determines that an action authorized under subsection (c), (d), or (e) will reduce the total of the direct and indirect costs to the Federal Government of a commodity program administered by the Secretary without adversely affecting income to small- and medium-sized producers participating in such program, the Secretary shall take such action with respect to the commodity program involved. 7 USC 1308a.

(b) In the announcement of the specific provisions of any commodity program administered by the Secretary of Agriculture, the Secretary shall include a statement setting forth which, if any, of the actions are to be initially included in the program, and a statement that the Secretary reserves the right to initiate at a later date any action not previously included but authorized by this section, including the right to reopen and change a contract entered into by a producer under the program if the producer voluntarily agrees to the change. Contract.

(c) When a nonrecourse loan program is in effect for a crop of a commodity, the Secretary may enter the commercial market to purchase such commodity if the Secretary determines that the cost of such purchases plus appropriate carrying charges will probably be less than the comparable cost of later acquiring the commodity through defaults on nonrecourse loans under the program. Loans.

(d) When the domestic market price of a commodity for which a nonrecourse loan program is in effect is insufficient to cover the principal and accumulated interest on a loan made under such program, thereby encouraging default by a producer, the Secretary may provide for settlement of such loan and redemption by the producer of the commodity securing such loan for less than the total of the principal and all interest accumulated thereon if the Secretary determines that such reduction in the settlement price will yield savings to the Federal Government due to— Loans.

(1) receipt by the Federal Government of a portion rather than none of the accumulated interest;
 (2) avoidance of default; or
 (3) elimination of storage, handling, and carrying charges on the forfeited commodity, Prohibition.
 but the Secretary may not reduce the settlement price to less than the principal due on the loan.

Loan.

(e) When a production control or loan program is in effect for a crop of a major agricultural commodity, the Secretary may at any time prior to harvest reopen the program to participating producers for the purpose of accepting bids from producers for the conversion of acreage planted to such crop to diverted acres in return for payment in kind from Commodity Credit Corporation surplus stocks of the commodity to which the acreage was planted, if the Secretary determines that (1) changes in domestic or world supply or demand conditions have substantially changed after announcement of the program for that crop, and (2) without action to further adjust production, the Federal Government and producers will be faced with a burdensome and costly surplus. Such payments in kind shall not be included within the payment limitation of \$50,000 per person established under section 1001 of this Act, but shall be limited to a total \$20,000 per year per producer for any one commodity.

(f) The authority provided in this section shall be in addition to, and not in place of, any authority granted to the Secretary under any other provision of law.

MULTIYEAR SET-ASIDES

Contracts.
7 USC 1445i.

SEC. 1010. Notwithstanding any other provision of law:

(1) The Secretary of Agriculture may enter into multiyear set-aside contracts for a period not to extend beyond the 1990 crops. Such contracts may be entered into only as a part of the programs in effect for the 1986 through 1990 crops of wheat, feed grains, upland cotton, and rice, and only producers participating in one or more of such programs shall be eligible to contract with the Secretary under this section. Producers agreeing to a multiyear set-aside agreement shall be required to devote the set-aside acreage to vegetative cover capable of maintaining itself through such period to provide soil protection, water quality enhancement, wildlife production, and natural beauty. Grazing of livestock under this section shall be prohibited, except in areas of a major disaster, as determined by the President, if the Secretary finds there is a need for such grazing as a result of such disaster. Producers entering into agreements under this section shall also agree to comply with all applicable State and local laws and regulations governing noxious weed control.

Contract.

(2) The Secretary shall provide cost-sharing incentives to farm operators for the establishment of vegetative cover, whenever a multiyear set-aside contract is entered into under this section.

(3) The Secretary may issue such regulations as the Secretary determines necessary to carry out this section.

program under section 105C or 107D for one or more of the 1986 through 1990 crops of wheat and feed grains if the Secretary determines that such action is in the public interest as a result of the imposition of restrictions on the export of any such commodity by the President or other member of the executive branch of the Federal Government. To carry out effectively a set-aside or acreage limitation program authorized under this section, the Secretary may make such modifications and adjustments in such program as the Secretary determines necessary because of any delay in instituting such program."

SUBTITLE B—UNIFORM BASE ACREAGE AND YIELD PROVISIONS

ACREAGE BASE AND PROGRAM YIELD SYSTEM FOR THE WHEAT, FEED GRAIN, UPLAND COTTON, AND RICE PROGRAMS

SEC. 1031. Effective for the 1986 through 1990 crops of wheat, feed grains, upland cotton, and rice, the Agricultural Act of 1949 (7 U.S.C. 1421 et seq.) is amended by inserting after title IV the following new title:

“TITLE V—ACREAGE BASE AND PROGRAM YIELD SYSTEM FOR THE WHEAT, FEED GRAIN, UPLAND COTTON, AND RICE PROGRAMS

7 USC 1461.

“SEC. 501. The purpose of this title is to prescribe a system for establishing farm and crop acreage bases and program yields for the

wheat, feed grain, upland cotton, and rice programs under this Act that is efficient, equitable, flexible, and predictable.

"SEC. 502. For purposes of this title—

7 USC 1462.

"(1) the term 'program crop' means any crop of wheat, feed grains, upland cotton, or rice; and

"(2) the term 'county committee' means the county committee established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) for the county in which the farm is administratively located.

7 USC 1463.

"(2) With respect to the 1986 crop year, the Secretary may forgo the establishment of farm acreage bases under this title.

"(b)(1) The county committee, in accordance with regulations prescribed by the Secretary, shall determine the farm acreage base for a farm for a crop year. Such farm acreage base shall include the number of acres equal to the sum of the crop acreage bases for the farm.

Regulations.

"(2) In the case of farm acreage bases established for the 1987 and subsequent crop years, the determination of the farm acreage base shall also include (in addition to the crop acreage bases for the farm) the sum of (A) the average of the acreage on the farm planted to soybeans in the 1986 and subsequent crop years, and (B) the average of the acreage on the farm devoted by the producer to a conserving use in the normal course of farming operations in the 1986 and subsequent crop years.

"SEC. 504. (a)(1) The Secretary shall provide for the establishment and maintenance of crop acreage bases for each program crop, including any program crop produced under an established practice of double cropping. The sum of the crop acreage bases for all program crops produced on any farm for any crop year shall not exceed the farm acreage base for such farm for such crop year, except to the extent that the excess is due to an established practice of double cropping.

Prohibition.
7 USC 1464.

"(2) The term 'double cropping' means a farming practice, as defined by the Secretary, which has been carried out on a farm in at least 3 of the 5 crop years immediately preceding the crop year for which the crop acreage base for the farm is established.

"(b)(1)(A) Except as provided in subparagraph (B), the crop acreage base for a program crop for any farm for the 1986 and subsequent crop years shall be the number of acres that is equal to the average of the acreage planted and considered planted to such program crop for harvest on the farm in each of the five crop years preceding such crop year.

"(B)(i) In the case of upland cotton and rice, except as provided in clause (ii), if no planted and considered planted acreage has been established for a farm for each of the five crop years preceding such crop year, the crop acreage base for such crop shall be equal to the average of the acreage planted and considered planted to such crop for harvest on the farm in each of the five crop years preceding such crop year, excluding all crop years in which planted and considered planted acreage was not established for the farm.

"(ii) Any crop acreage base established in accordance with paragraph (1)(A) and paragraph (1)(B)(i) shall not exceed a number of acres equal to the average of the acreage planted and considered

Prohibition.

planted to such crop for harvest on the farm in each of the two crop years preceding such crop year.

“(2) The acreage considered planted to a program crop shall include—

“(A) any reduced acreage, set-aside acreage, and diverted acreage on the farm;

“(B) any acreage on the farm that producers were prevented from planting to such crop because of drought, flood, or other natural disaster, or other condition beyond the control of the producers;

“(C) acreage in an amount equal to the difference between the permitted acreage for a program crop and the acreage planted to the crop, if the acreage considered to be planted is planted to a nonprogram crop, other than soybeans and extra long staple cotton; and

“(D) any acreage on the farm which the Secretary determines is necessary to be included in establishing a fair and equitable crop acreage base.

Regulations.

“(3) For the purpose of determining the crop acreage base for the 1986 and subsequent crop years for any farm, the county committee, in accordance with regulations prescribed by the Secretary, may construct a planting history for such crop if—

“(A) planting records for such crop for any of the five crop years preceding such crop year are incomplete or unavailable; or

“(B) during at least one but not more than four of the five crop years preceding such crop year, the program crop was not produced on the farm.

“(c) The Secretary may make adjustments to reflect crop rotation practices and to reflect such other factors as the Secretary determines should be considered in determining a fair and equitable crop acreage base.

“(d) If a county committee determines, in accordance with regulations prescribed by the Secretary, that the occurrence of a natural disaster or other similar condition beyond the control of the producer prevented the planting of a program crop on any farm within the county (or substantially destroyed any such program crop after it had been planted but before it had been harvested), the producer may plant any other crop, including any other program crop, on the acreage of such farm that, but for the occurrence of such disaster or other condition, would have been devoted to the production of a program crop. For purposes of determining the farm acreage base or the crop acreage base, any acreage on the farm on which a substitute crop, including any program crop, is planted under this subsection shall be taken into account as if such acreage had been planted to the program crop for which the other crop was substituted.

Prohibition.
7 USC 1465.

“SEC. 505. (a) The Secretary may provide for an upward adjustment of any crop acreage base for any farm for any crop year. Except as provided in subsection (b), such adjustment may not exceed the number of acres that is equal to 10 percent of the farm acreage base for such farm for such crop year. Any upward adjustment in a crop acreage base must be offset by an equivalent downward adjustment in one or more other crop acreage bases established for the farm for such crop year.

“(b) The Secretary may suspend, on a nationwide basis, any limitation contained in subsection (a) with respect to the crop

acreage base for any program crop if the Secretary determines that—

“(1) a short supply or other similar emergency situation exists with respect to the program crop; or

“(2) market factors exist that require the suspension of the limitation to achieve the purposes of the program.

“SEC. 506. (a) The Secretary shall provide for the establishment of a farm program payment yield for each farm for each program crop for each crop year. 7 USC 1466.

“(b)(1) Except as provided in paragraph (2), the farm program payment yield for each of the 1986 and 1987 crop years shall be the average of the farm program payment yields for the farm for the 1981 through 1985 crop years, excluding the year in which such yield was the highest and the year in which such yield was the lowest.

“(2) If no crop of the commodity was produced on the farm or no farm program payment yield was established for the farm for any of the 1981 through 1985 crop years, the farm program payment yield shall be established on the basis of the average farm program payment yield for such crop years for similar farms in the area.

“(3) If the Secretary determines such action is necessary, the Secretary may establish national, State, or county program payment yields on the basis of—

Subtitle B—Maintenance and Development of Export Markets

TRADE POLICY DECLARATION

7 USC 1736p.

SEC. 1121. (a) Congress finds that—

(1) the volume and value of United States agricultural exports have significantly declined in recent years as a result of unfair foreign competition and the high value of the dollar;

(2) this decline has been exacerbated by the lack of uniform and coherent objectives in United States agricultural trade policy and the absence of direction and coordination in trade policy formulation;

(3) agricultural interests have been under-represented in councils of government responsible for determining economic policy that has contributed to a strengthening of the United States dollar;

(4) foreign policy objectives of the United States have been introduced into the trade policy process in a manner injurious to the goal of maximizing United States economic interests through trade; and

(5) the achievement of that goal is in the best interests of the United States.

(b) It is hereby declared to be the agricultural trade policy of the United States to—

(1) provide through all means possible agricultural commodities and their products for export at competitive prices, with full assurance of quality and reliability of supply;

(2) support the principle of free trade and the promotion of fairer trade in agricultural commodities and their products;

(3) cooperate fully in all efforts to negotiate with foreign countries reductions in current barriers to fair trade;

(4) counter aggressively unfair foreign trade practices using all available means, including export restitution, export bonus programs, and, if necessary, restrictions on United States imports of foreign agricultural commodities and their products, as a means to encourage fairer trade;

(5) remove foreign policy constraints to maximize United States economic interests through agricultural trade; and

(6) provide for consideration of United States agricultural trade interests in the design of national fiscal and monetary policy that may foster continued strength in the value of the dollar.

TRADE LIBERALIZATION

7 USC 1736q.

SEC. 1122. (a) Congress finds that—

(1) the present high level of agricultural protectionism contrasts sharply with the general trade liberalization that has been achieved since the inception of the General Agreement on Tariffs and Trade (hereinafter referred to as "GATT"); and

(2) GATT procedures should explicitly recognize the protective effect of domestic subsidies that alter trade indirectly by reducing the demand for imports and increasing the supply of exports.

(b) It is the sense of Congress that the President should negotiate with other parties to GATT to revise GATT rules and codes with the goal of reducing agricultural export subsidies, tariffs, and nontariff barriers to trade.

AGRICULTURAL TRADE CONSULTATIONS

SEC. 1123. (a) To improve the orderly marketing of United States agricultural commodities, to achieve higher income for United States producers of agricultural commodities, and to reduce the likelihood of an agricultural commodity price war and the need for export subsidy programs, the Secretary of Agriculture shall, in coordination with the United States Trade Representative, confer with representatives of other major agricultural producing countries and, at the earliest possible date, initiate and pursue agricultural trade consultations among major agricultural producing countries. 7 USC 1736r.

(b) It is the sense of Congress that the objectives of the consultations called for in subsection (a) should be to—

(1) increase the exchange of information on worldwide agricultural production, demand, and commodity supply levels;

(2) determine a more equitable sharing of responsibility for maintaining agricultural commodity reserves and managing supplies of agricultural commodities; and

(3) attain increased cooperation in restraining export subsidy programs.

(c) The Secretary of Agriculture shall report to Congress by July 1, 1986, and annually thereafter through fiscal year 1990, on the progress of efforts to initiate and pursue the consultations called for in subsection (a), including any agreements reached with respect to the objectives set forth in subsection (b).

TARGETED EXPORT ASSISTANCE

SEC. 1124. (a) For export activities authorized to be carried out by the Secretary of Agriculture or the Commodity Credit Corporation, the Secretary of Agriculture shall use under this section, in addition to any funds or commodities otherwise required under this Act to be used for such activities, for the fiscal year ending September 30, 1986, and each of the fiscal years thereafter through September 30, 1990, not less than \$325,000,000 of funds of, or an equal value of commodities owned by, the Corporation. 7 USC 1736s.

(b)(1) Funds or commodities made available for use under this section shall be used by the Secretary only to counter or offset the adverse effect on the export of a United States agricultural commodity or the product thereof of a subsidy (as defined in paragraph (2)), import quotas, or other unfair trade practices of a foreign country.

(2) As used in paragraph (1), the term subsidy includes an export subsidy, tax rebate on exports, financial assistance on preferential terms, financial assistance for operating losses, assumption of costs

or expenses of production, processing, or distribution, a differential export tax or duty exemption, a domestic consumption quota, or other method of furnishing or ensuring the availability of raw materials at artificially low prices.

(c) The Secretary shall provide export assistance under this section on a priority basis in the case of—

98 Stat. 3002,
3003, 3005.

(2) agricultural commodities and the products thereof for which exports have been adversely affected, as defined by the Secretary, by retaliatory actions related to a favorable decision under section 301 of the Trade Act of 1974 (19 U.S.C. 2411).

SHORT-TERM EXPORT CREDIT

7 USC 1736t.

SEC. 1125. (a) In making available any guarantees of the repayment of credit extended on terms of up to 3 years in connection with the export sale of United States agricultural commodities or the products thereof, the Commodity Credit Corporation shall take into account—

(1) the credit needs of countries that are potential purchasers of United States agricultural exports;

(2) the creditworthiness of such countries; and

(3) whether the availability of Commodity Credit Corporation guarantees will improve the competitive position of United States agricultural exports in world markets.

(b) Effective for the fiscal year ending September 30, 1986 and each fiscal year thereafter through the fiscal year ending September 30, 1990, the Commodity Credit Corporation shall make available not less than \$5,000,000,000 in credit guarantees under its export credit guarantee program for short-term credit extended to finance the export sales of United States agricultural commodities and the products thereof.

Prohibition.

(c) Notwithstanding any other provision of law, the Secretary of Agriculture may not charge an origination fee with respect to any credit guarantee transaction under the Export Credit Guarantee Program (GSM-102) in excess of an amount equal to one percent of the credit extended under the transaction.

COOPERATOR MARKET DEVELOPMENT PROGRAM

7 USC 1736u.

SEC. 1126. (a) It is the sense of Congress that the cooperator market development program of the Foreign Agricultural Service should be continued to help develop new markets and expand and maintain existing markets for United States agricultural commodities, using nonprofit agricultural trade organizations to the maximum extent practicable.

7 USC 1736u.

(b) The cooperator market development program shall be exempt from the requirements of Circular A 110 issued by the Office of Management and Budget.

(c) Subclause (B) of section 1207(a)(5) of the Agriculture and Food Act of 1981 (7 U.S.C. 1736m(a)(5)(B)) is amended to read as follows: “(B) funding an export market development program for value-added farm products and processed foods at a higher funding level than that provided during the fiscal year ending September 30, 1985; and”.

(iii) products of the commodities and products described in clauses (i) and (ii) that are processed in the United States.

(b) In carrying out the program established by this section, the Secretary of Agriculture—

(1) shall take such action as may be necessary to ensure that the program provides equal treatment to domestic and foreign purchasers and users of United States agricultural commodities and the products thereof in any case in which the importation of a manufactured product made, in whole or in part, from a commodity or the product thereof made available for export under this section would place domestic users of the commodity or the product thereof at a competitive disadvantage;

(2) shall, to the extent that agricultural commodities and the products thereof are to be provided to foreign purchasers during any fiscal year, consider for participation all interested foreign purchasers, giving priority to those who have traditionally purchased United States agricultural commodities and the products thereof and who continue to purchase such commodities and the products thereof on an annual basis in quantities greater than the level of purchases in a previous representative period;

(3) shall encourage increased use and avoid displacing usual marketings of United States agricultural commodities and the products thereof;

(4) shall take reasonable precautions to prevent the resale or transshipment to other countries, or use for other than domestic use in the importing country, of agricultural commodities or the products thereof the export of which is assisted under this section; and

(5) may provide to a United States exporter, user, processor, or foreign purchaser, under the program, agricultural commodities of a kind different than the agricultural commodity involved in the transaction for which assistance under this section is being provided.

(c)(1) If a country does not meet the financial qualifications for export credit or credit guarantees provided by the Commodity Credit Corporation, the Secretary may provide to such country agricultural commodities and the products thereof acquired by the Corporation to the extent necessary to reduce the cost to such country of purchasing United States agricultural commodities and to allow such country to meet such qualifications.

(2) The Secretary shall review and adjust annually the quantity of commodities provided to a country under paragraph (1) in order to encourage such country to place greater reliance on increased use of

commercial trade to meet the qualifications referred to in paragraph (1).

(2) The Secretary shall make such certificates available under such terms and conditions as the Secretary determines appropriate.

STUDY TO REDUCE FOREIGN EXCHANGE RISK

SEC. 1134. (a) The Secretary of Agriculture shall conduct a study to determine the feasibility, practicability and cost of implementing a program to reduce the risk of foreign exchange fluctuations that is incurred by the purchasers of United States agricultural exports under United States export credit promotion programs. The purpose of the study is to examine whether the GSM-102 program and all other United States export credit initiatives relating to agricultural exports would be enhanced by the United States assuming the foreign exchange risk of the buyer which resulted from a rise in the value of the United States dollar compared to the trade-weighted index of the dollar. The index referred to is the “trade-weighted index” published by the Department of Commerce as a measurement of the relative buying power of the dollar compared to the currencies of nations trading with the United States. The elements of the program to be considered in this study would include the following: Exports.

(1) On the date a foreign buyer receives GSM-102 or other credit for purposes of purchasing United States agricultural products, the maximum loan repayment exchange rate would be tied to the trade-weighted value of the United States dollar on the same date. Loans.

Loans.

(2) If in the future the United States dollar gains in strength (a higher trade-weighted index), the buyer would continue to repay the loan at the lower value fixed at the time the GSM-102 credit was extended.

(3) If the United States dollar falls in value during the term of the repayment period, the foreign buyer could calculate his repayment on the lower dollar value.

(b) Not later than six months after the enactment of this Act, the Secretary shall report the results of such study to the Committee on Agriculture of the House of Representatives and to the Committee on Agriculture, Nutrition, and Forestry of the Senate.

(1) to enable the Department of Agriculture to plan its export programs effectively, by clarifying the ocean transportation requirements applicable to such programs;

(2) to take immediate and positive steps to promote the growth of the cargo carrying capacity of the United States merchant marine;

(3) to expand international trade in United States agricultural commodities and products and to develop, maintain, and expand markets for United States agricultural exports;

(4) to improve the efficiency of administration of both the commodity purchasing and selling and the ocean transportation activities associated with export programs sponsored by the Department of Agriculture;

(5) to stimulate and promote both the agricultural and maritime industries of the United States and encourage cooperative efforts by both industries to address their common problems; and

46 USC 1245 *et seq.*

in order to determine if such program, project, or activity is likely to have such a detrimental impact.

UNFAIR TRADE PRACTICES

SEC. 1164. The Congress finds that—

(1) United States producers and processors of citrus, wheat flour, poultry, canned fruits, and raisins have filed petitions under section 302 of the Trade Act of 1974 alleging that the subsidies and discriminatory tariffs of the European Communities are inconsistent with the principles and terms of the General Agreement on Tariffs and Trade (hereafter referred to in this section as the “GATT”) and have placed United States exporters at a competitive disadvantage;

(2) throughout the past decade, the European Communities has repeatedly rebuffed extensive United States efforts to re-

solve these matters through bilateral consultations and multilateral negotiations, as well as through consultations under the provisions of the GATT;

(3) after many years of frustrated discussions, the United States had no choice but to invoke the dispute settlement procedures of the GATT as the only remaining means of seeking redress for American producers and processors;

(4) investigatory panels, established by the GATT to review United States complaints with respect to citrus, canned fruits, and raisins, concluded that European Communities subsidies and discriminatory tariffs had nullified and impaired rights of United States exporters and were in violation of the GATT and recommended that the European Communities take necessary steps to rectify the matters;

(5) the European Communities has effectively and repeatedly prevented adoption by the GATT of each of these reports, most recently, the favorable report involving the 15-year-old citrus complaint;

(6) on May 1, 1985, the President concluded that the GATT dispute settlement process with respect to the citrus complaint was terminated and, pursuant to section 301 of the Trade Act of 1974, the President had to consider a subsequent course of action to redress the injury to United States citrus exporters;

(7) on June 20, 1985, the President announced that a reasonable and appropriate course of action in response to the unwillingness of the European Communities to implement the unanimous finding of the GATT panel or to negotiate a mutually acceptable resolution of the citrus complaint is to withdraw an equivalent amount of concessions from imported European Communities pasta products and, in response, the European Communities notified the United States that the European Communities would retaliate by increasing the European Communities duties on United States lemon and walnut imports;

(8) on July 19, 1985, the United States and the European Communities agreed to suspend until October 31, 1985, the tariff increases, in order to provide the European Communities with additional time to resolve the citrus complaint; and

(9) despite this suspension, the European Communities has failed to present to the United States an acceptable proposal to resolve the citrus complaint, and effective November 1, 1985, the United States reinstated the pasta tariff increase, and in turn, the European Communities reinstated the lemon and walnut tariff increase.

(b) The President shall take all appropriate and feasible action within the power of the Presidency (including, but not limited to, the actions described in section 301 of the Trade Act of 1974 (19 U.S.C. 2411)) to—

(1) ensure a prompt and satisfactory resolution of all complaints regarding subsidies and discriminatory tariffs of the European Communities which—

(A) are set forth in petitions filed under section 302 of the Trade Act of 1974 by United States exporters of citrus, wheat flour, poultry, canned fruits, and raisins, and

(B) are pending before the GATT on the date of enactment of this Act; and

THAI RICE

SEC. 1165. (a) Congress finds that—

(1) Rice ranks 9th among major domestic field crops in value of production;

(2) Rice accounts for about 5 percent of the value of major field crops produced in the United States;

(3) The value of domestic rice production annually is over \$1,500,000,000;

(4) Ending stocks for rice have sharply increased since 1980;

(5) The projected 1985-1986 carryover of rice as a percentage of annual use is 62 percent;

(6) Between 1980 and 1983, rice stocks rose and prices fell, pushing rice program costs from less than one-tenth to over nine-tenths of the value of United States rice production;

(7) Over the last several years, the percentage of world rice exports from the United States has fallen from a high of 25 percent to 18 percent in 1985;

(8) In the last several years, Thailand has become the largest rice exporter in the world, accounting for 30 percent of the world market;

(9) Thai rice imports into the United States have displaced normal sales of United States rice and have increased Government costs;

(10) In 1983, the United States imported 33.2 million pounds of rice from Thailand, in 1984 the United States imported 51.3 million pounds of rice (an increase of 53 percent), and in the first six months of 1985, rice imports from Thailand to the United States have already reached 58.3 million pounds; and

(11) A petition has been filed with the Department of Commerce asking that countervailing duties be imposed upon imports of Thai rice into the United States.

(b) Based upon these findings, it is the sense of Congress that—

(1) our domestic rice industry is of vital importance and must be protected from unfair foreign competition; and

(2) the Secretary of Commerce should give immediate consideration to the countervailing duty petition referred to in subsection (a)(11).

END USERS OF IMPORTED TOBACCO

SEC. 1166. Section 213 of the Dairy and Tobacco Adjustment Act of 1983 (7 U.S.C. 511r) is amended by adding after the subsection added by section 1161 of this Act the following:

The importer shall file with the Department of Agriculture an amended statement if, at any time after the time of entry of such tobacco imports, the importer has knowledge of any additional

purchaser or end user. In those cases in which the importer has not identified all end users of such imported tobacco, the Secretary of Agriculture shall take all steps available to ascertain the identity of any and all such end users, including requesting such information from purchasers of such imported tobacco. Domestic purchasers of imported tobacco shall be required to supply any relevant information to the Department of Agriculture upon demand under this subsection.

Report.

“(2) The Secretary shall provide to the Senate Committee on Agriculture, Nutrition, and Forestry, and the House Committee on Agriculture, on or before April 1, 1986, a report on the implementation of this authority to identify each end user and purchaser of imported tobacco. Such report shall identify the end users and purchasers of imported tobacco and the quantity, in pounds, bought by such end user or purchaser, as well as all steps taken by the Department of Agriculture to ascertain such identities. The Secretary shall provide an additional report, beginning November 15, 1986, and annual reports thereafter, on the implementation of this authority.

Reports.

“(3) As used in this subsection, the term ‘end user of imported tobacco’ means—

“(A) a domestic manufacturer of cigarettes or other tobacco products;

“(B) an entity that mixes, blends, processes, alters in any manner, or stores, imported tobacco for export; and

“(C) any other individual that the Secretary may identify as making use of imported tobacco for the production of tobacco products.”
