

Environmental Law Reading Room

Additional ERS Recommended Readings:

2006:

- [Balancing the Multiple Objectives of Conservation Programs](#) (Cattaneo, et al., 2006)
- [Contrasting Working-Land and Land Retirement Programs](#) (Aillery, 2006)
- [Environmental Effects of Agricultural Land-Use Change: The Role of Economics and Policy](#) (Lubowski et al., 2006)
- [Environmental Credit Trading: Can Farming Benefit?](#) (Ribaudo, 2006)
- [Greening Income Support and Supporting Green](#) (Claassen and Morehart, 2006)
- [Land Retirement and Working Land Conservation Structures: A Look at Farmers' Choices](#) (Lambert and Sullivan, 2006)
- [Rewarding Farm Practices Versus Environmental Performance](#) (Weinberg and Claassen, 2006)

2005:

- [Improving Air and Water Quality Can Be Two Sides of the Same Coin](#) (2005)
- [Managing Manure to Improve Air and Water Quality](#) (2005)

2004:

- [The Conservation Reserve Program: Economic Implications for Rural America](#) (Sullivan et al., 2004)
- [Economics of Sequestering Carbon in the U.S. Agricultural Sector](#) (Lewandrowski 2004)
- [Environmental Compliance in U.S. Agricultural Policy: Past Performance and Future Potential](#) (Claassen, 2004)
- [Measuring the Success of Conservation Programs](#) (Smith and Weinberg, 2004)
- [Risk, Government Programs, and the Environment](#) (Roberts et al., 2004)

2003:

- Economic and Structural Relationships in U.S. Hog Production (2003)
- Managing Manure: New Clean Water Act Regulations Create Imperative for Livestock Producers (Ribaldo, 2003)
- Manure Management for Water Quality: Costs to Animal Feeding Operations of Applying Animal Manure Nutrients to Land (2003)

2001:

- Agri-Environmental Policy at the Crossroads: Guideposts on a Changing Landscape (Claassen et al., 2001)
- Confined Animal Production and Manure Nutrients (2001)

1999:

- Economics of Water Quality Protection from Nonpoint Sources: Theory and Practice (Ribaldo, 1999)
- Policy Considerations for Increasing Compatibilities Between Agriculture and Wildlife (Lewandrowski, 1999)
- Reducing Greenhouse Gas Buildup: Impacts on Ag-Sector Returns (1999)

1998:

- Agricultural Adaptation to Climate Change: Issues of Longrun Sustainability (Schimmelpfennig, 1998)
- Wetlands and Agriculture: Private Interests and Public Benefits (Heimlich et al., 1998)

1995:

- World Agriculture and Climate Change: Economic Adaptations (Darwin et al., 1995)
