## State Meat Inspection Laws: Nevada

The state of Nevada does not have a state inspection program. As a result, all inspected facilities within the state are governed by USDA/FSIS [regulations](#) and [guidance](#) as to the facility and practice requirements.

However, Nevada does still have relevant statutory language regarding slaughter. That language is located at:

**[Nev. Rev. Stat. Tit. 51, Ch. 583, §583.255 et seq.](#)**
