## States' Differential Tax Assessment of Agricultural Land Statutes State of Maine

### [Me. Rev. Stat. tit. 36, §§ 1101–1119](#)

*Current with legislation through the 2017 Second Regular Session and Second Special Session of the 128th Legislature. The Second Regular Session convened January 3, 2018 and adjourned sine die May 2, 2018. The general effective date is August 1, 2018. The Second Special Session convened June 19, 2018 and adjourned September 13, 2018. The general effective date is December 13, 2018.*

#### **§ 1101. Purpose**

It is declared that it is in the public interest to encourage the preservation of farmland and open space land in order to maintain a readily available source of food and farm products close to the metropolitan areas of the State to conserve the State's natural resources and to provide for the welfare and happiness of the inhabitants of the State, that it is in the public interest to prevent the forced conversion of farmland and open space land to more intensive uses as the result of economic pressures caused by the assessment thereof for purposes of property taxation at values incompatible with their preservation as such farmland and open space land, and that the necessity in the public interest of the enactment of this subchapter is a matter of legislative determination.

#### **§ 1102. Definitions**

When used in this subchapter, unless the context otherwise indicates, the following words shall have the following meanings.

1. Repealed. Laws 1979, c. 378, § 7.
2. Comprehensive plan. "Comprehensive plan" means zoning or a plan of development, including any amendment thereto, prepared or adopted by the planning board.
3. Cropland. "Cropland" means acreage within a farm unit of land in tillage rotation, open land formerly cropped and land in bush fruits.
4. Farmland. "Farmland" means any tract or tracts of land, including woodland and wasteland, of at least 5 contiguous acres on which farming or agricultural activities have contributed to a gross annual farming income of at least \$2,000

per year from the sales value of agricultural products as defined in Title 7, section 152, subsection 2 in one of the 2, or 3 of the 5, calendar years preceding the date of application for classification. The farming or agricultural activity and income derived from that activity may be achieved by either the owner or a lessee of the land.

A. Deleted. Laws 1987, c. 728, § 1.

B. Deleted. Laws 1987, c. 728, § 1.

C. A parcel of land that is located on an island may not be considered contiguous to another parcel of land that is not located on the same island if the parcels of land are separated by water at the normal high-water mark or high tide. A parcel of land located on an island that was included within a parcel classified as farmland before April 1, 2017 and that is excluded from classification as farmland under this paragraph must be considered as land classified as open space land unless the owner withdraws the land from classification under this subchapter.

Gross income as used in this subsection includes the value of commodities produced for consumption by the farm household. Any applicant for assessment under this subchapter bears the burden of proof as to the applicant's qualification.

4-A. Forest management and harvest plan. "Forest management and harvest plan" means a written document that outlines activities to regenerate, improve and harvest a standing crop of timber. A plan must include the location of water bodies and wildlife habitat as identified by the Department of Inland Fisheries and Wildlife. A plan may include, but is not limited to, schedules and recommendations for timber stand improvement and harvesting plans and recommendations for regeneration activities. A plan must be prepared by a licensed professional forester or a landowner and be reviewed and certified by a licensed professional forester as consistent with sound silvicultural practices.

4-B. Forested land. "Forested land" means land that is used in the growth of trees but does not include ledge, marsh, open swamp, bog, water and similar areas that are unsuitable for growing trees.

5. Farm woodland. "Farm woodland" means the combined acreage within a farm unit of forested land.

5-A. Horticultural land. "Horticultural land" means land which is engaged in the production of vegetables, tree fruits, small fruits, flowers and woody or herbaceous plants.

6. Open space land. "Open space land" means any area of land, including state wildlife and management areas, sanctuaries and preserves designated as such

in Title 12, the preservation or restriction of the use of which provides a public benefit in any of the following areas:

- A. Conserving scenic resources;
  - B. Enhancing public recreation opportunities;
  - C. Promoting game management; or
  - D. Preserving wildlife or wildlife habitat.
7. Orchard land. "Orchard land" means the combined acreage within a farm unit of land devoted to the cultivation of trees bearing edible fruit.
8. Pastureland. "Pastureland" means the combined acreage within a farm unit of land devoted to the production of forage plants used for animal production.
9. Planning board. "Planning board" means a planning board created for the purpose of planning in any municipality or the Maine Land Use Planning Commission in the unorganized territory.
10. Wildlife habitat. "Wildlife habitat" means land that is subject to a written management agreement between the landowner and either the Department of Inland Fisheries and Wildlife or the Department of Agriculture, Conservation and Forestry to ensure that the habitat benefits provided by the land are not lost. Management agreements may be revised or updated by mutual consent of both parties at any time. Management agreements must be renewed at least every 10 years. "Wildlife habitat" must also meet one of the following criteria:
- A. The land is designated by the Department of Inland Fisheries and Wildlife as supporting important wildlife habitat;
  - B. The land supports the life cycle of any species of wildlife as identified by the Department of Inland Fisheries and Wildlife;
  - C. The land is identified by the Department of Agriculture, Conservation and Forestry as supporting a natural vegetation community; or
  - D. The land is designated as a resource protection area in a comprehensive plan, zoning ordinance or zoning map.

### **§ 1103. Owner's application**

An owner of farmland or open space land may apply for taxation under this subchapter by filing

with the assessor the schedule provided for in section 1109. The election to apply requires the written consent of all owners of an interest in that farmland or open space land.

#### **§ 1104. Administration; regulations**

The State Tax Assessor shall adopt and amend such rules and regulations as may be reasonable and appropriate to carry out his responsibilities as provided in this subchapter.

#### **§ 1105. Valuation of farmland**

The municipal assessor, chief assessor or State Tax Assessor for the unorganized territory shall establish the 100% valuation per acre based on the current use value of farmland used for agricultural or horticultural purposes. The values established must be guided by the Department of Agriculture, Conservation and Forestry as provided in section 1119 and adjusted by the assessor if determined necessary on the basis of such considerations as farmland rentals, farmer-to-farmer sales, soil types and quality, commodity values, topography and other relevant factors. These values may not reflect development or market value purposes other than agricultural or horticultural use. The values may not reflect value attributable to road frontage or shore frontage.

The 100% valuation per acre for farm woodland within a parcel classified as farmland under this subchapter is the 100% valuation per acre for each forest type established for each county pursuant to subchapter 2-A.1 Areas other than woodland, agricultural land or horticultural land located within any parcel of farmland classified under this subchapter are valued on the basis of just value.

#### **§ 1106-A. Valuation of open space land**

1. Valuation method. For the purposes of this subchapter, the current use value of open space land is the sale price that particular open space parcel would command in the marketplace if it were required to remain in the particular category or categories of open space land for which it qualifies under section 1102, subsection 6, adjusted by the certified ratio.
2. Alternative valuation method. Notwithstanding any other provision of law, if an assessor is unable to determine the valuation of open space land under the valuation method in subsection 1, the assessor may value that land under the alternative method in this subsection. The assessor may reduce the ordinary assessed valuation of the land, without regard to conservation easement restrictions and as reduced by the certified ratio, by the cumulative percentage reduction for which the land is eligible according to the following categories.

- A. All open space land is eligible for a reduction of 20%.

- B. Permanently protected open space land is eligible for the reduction set in paragraph A and an additional 30%.
- C. Forever wild open space land is eligible for the reduction set in paragraphs A and B and an additional 20%.
- D. Public access open space land is eligible for the applicable reduction set in paragraph A, B or C and an additional 25%.
- E. Managed forest open space land is eligible for the reduction set in paragraphs A, B and D and an additional 10%.

Notwithstanding this section, the value of forested open space land may not be reduced to less than the value it would have under subchapter 2-A,1 and the open space land valuation may not exceed just value as required under section 701-A.

3. Definition of land eligible for additional percentage reduction. The following categories of open space land are eligible for the additional percentage reduction set forth in subsection 2, paragraphs B, C, D and E.

- A. Permanently protected open space is an area of open space land that is eligible for an additional cumulative percentage reduction in valuation because that area is subject to restrictions prohibiting building development under a perpetual conservation easement pursuant to Title 33, chapter 7, subchapter 8-A2 or as an open space preserve owned and operated by a nonprofit entity in accordance with section 1109, subsection 3, paragraph H.
- B. Forever wild open space is an area of open space land that is eligible for an additional cumulative percentage reduction in valuation because it is permanently protected and subject to restrictions or committed to uses by a nonprofit entity in accordance with section 1109, subsection 3, paragraph H that ensure that in the future the natural resources on that protected property will remain substantially unaltered, except for:
  - (1) Fishing or hunting;
  - (2) Harvesting shellfish in the intertidal zone;
  - (3) Prevention of the spread of fires or disease; or
  - (4) Providing opportunities for low-impact outdoor recreation, nature observation and study.
- C. Public access open space is an area of open space land, whether ordinary, permanently protected or forever wild, that is eligible for an additional cumulative percentage reduction in valuation because public access is

by reasonable means and the applicant agrees to refrain from taking action to discourage or prohibit daytime, nonmotorized and nondestructive public use. The applicant may permit, but is not obligated to permit as a condition of qualification for public access status, hunting, snowmobiling, overnight use or other more intensive outdoor recreational uses. The applicant, without disqualifying land from status as public access open space, may impose temporary or localized public access restrictions to:

- (1) Protect active habitat of endangered species listed under Title 12, chapter 925, subchapter 3;3
- (2) Prevent destruction or harm to fragile protected natural resources under Title 38, chapter 3, subchapter 1, article 5-A;4 or
- (3) Protect the recreational user from any hazardous area.

D. Managed forest open space land is an area of open space land whether ordinary, permanently protected pursuant to paragraph A or public access pursuant to paragraph C containing at least 10 acres of forested land that is eligible for an additional cumulative percentage reduction in valuation because the applicant has provided proof of a forest management and harvest plan. A forest management and harvest plan must be prepared for each parcel of managed forest open space land and updated every 10 years. The landowner must comply with the forest management and harvest plan and must submit every 10 years to the municipal assessor for parcels in a municipality or the State Tax Assessor for parcels in the unorganized territory a statement from a licensed professional forester that the landowner is managing the parcel according to the forest management and harvest plan. Failure to comply with the forest management and harvest plan results in the loss of the additional cumulative percentage reduction under this paragraph for 10 years. The assessor or the assessor's duly authorized representative may enter and examine the forested land and may examine any information in the forest management and harvest plan submitted by the owner. A copy of the forest management and harvest plan must be made available to the assessor to review upon request. For the purposes of this paragraph, "to review" means to see or possess a copy of a forest management and harvest plan for a reasonable amount of time to verify that the forest management and harvest plan exists or to facilitate an evaluation as to whether the forest management and harvest plan is appropriate and is being followed. Upon completion of a review, the forest management and harvest plan must be returned to the owner or an agent of the owner. A forest management and harvest plan provided in accordance with this section is confidential and is not a public record as defined in Title 1, section 402, subsection 3.

## § 1108. Assessment of tax

1. Organized areas. The municipal assessors shall adjust the 100% valuations per acre for farmland for their jurisdiction by whatever ratio or percentage of current just value is then being applied to other property within the municipality to obtain the assessed values. For any tax year, the classified farmland value must reflect only the current use value for farm or open space purposes and may not include any increment of value reflecting development pressure.

Commencing April 1, 1978, land in the organized areas subject to taxation under this subchapter must be taxed at the property tax rate applicable to other property in the municipality, which rate must be applied to the assessed values so determined.

2. Unorganized territory. The State Tax Assessor shall adjust the 100% valuations per acre for farmland for the unorganized territory by such ratio or percentage as is then being used to determine the state valuation applicable to other property in the unorganized territory to obtain the assessed values. For any tax year, the classified farmland value must reflect only the current use value for farm or open space purposes and shall not include any increment of value reflecting development pressure.

Commencing April 1, 1978, land in the unorganized territory subject to taxation under this subchapter shall be taxed at the state property tax rate applicable to other property in the unorganized territory, which rate shall be applied to the assessed values so determined.

## § 1109. Schedule; investigation

1. Schedule. The owner or owners of farmland subject to taxation under this subchapter shall submit a signed schedule, on or before April 1st of the year in which the owner or owners wish to first subject the land to taxation under this subchapter, to the assessor upon a form prescribed by the State Tax Assessor identifying the land to be taxed under this subchapter, indicating the number of acres of each farmland classification, showing the location of the land in each classification and representing that the land is farmland as defined in section 1102, subsection 4. In determining whether the land is farmland, the assessor shall take into account, among other things, the acreage of the land, the portion of the land that is actually used for farming or agricultural operations, the productivity of the land, the gross income derived from farming or agricultural operations on the land, the nature and value of the equipment used in connection with farming or agricultural operations on the land and the extent to which the tracts comprising the land are contiguous. If the assessor determines that the land is farmland as defined in section 1102, subsection 4, the assessor shall classify it as farmland and apply the appropriate 100% valuations per acre for farmland and that land is subject to taxation under this subchapter.

The assessor shall record, in the municipal office of the town in which the farmland is

located, the value of the farmland as established under this subchapter and the value at which the farmland would have been assessed had it not been classified under this subchapter.

2. Provisional classification. The owner of a parcel of land of at least 5 contiguous acres on which farming or agricultural activities have not produced the gross income required in section 1102, subsection 4 per year for one of the 2 or 3 of the 5 preceding calendar years, may apply for a 2-year provisional classification as farmland by submitting a signed schedule in duplicate, on or before April 1st of the year for which provisional classification is requested, identifying the land to be taxed under this subsection, listing the number of acres of each farmland classification, showing the location of the land in each classification and representing that the applicant intends to conduct farming or agricultural activities upon that parcel. Upon receipt of the schedule, the land must be provisionally classified as farmland and subjected to taxation under this subchapter. If, at the end of the 2-year period, the land does not qualify as farmland under section 1102, subsection 4, the owner shall pay a penalty that is an amount equal to the taxes that would have been assessed had the property been assessed at its fair market value on the first day of April for the 2 preceding tax years less the taxes paid on the property over the 2 preceding years and interest at the legal rate from the dates on which those amounts would have been payable.
3. Open space land qualification. The owner or owners of land who believe that land is open space land as defined in section 1102, subsection 6 shall submit a signed schedule on or before April 1st of the year in which that land first becomes subject to taxation under this subchapter to the assessor on a form prescribed by the State Tax Assessor that must contain a description of the land, a general description of the use to which the land is being put and other information required by the assessor to aid the assessor in determining whether the land qualifies for classification as open space land and for which of the valuation categories set forth in section 1106-A the land is eligible. The assessor shall determine whether the land is open space land as defined in section 1102, subsection 6 and, if so, that land must be classified as open space land and subject to taxation under this subchapter. In determining whether the restriction of the use or preservation of the land provides a public benefit in one of the areas set forth in section 1102, subsection 6, the assessor shall consider all facts and circumstances pertinent to the land and its vicinity. A factor that is pertinent to one application may be irrelevant in determining the public benefit of another application. A single factor, whether listed below or not, may be determinative of public benefit. Among the factors to be considered are:
  - A. The importance of the land by virtue of its size or uniqueness in the vicinity or proximity to extensive development or comprising an entire landscape feature;
  - B. The likelihood that development of the land would contribute to degradation of the scenic, natural, historic or archeological character of the area;

- C. The opportunity of the general public to appreciate significant scenic values of the land;
- D. The opportunity for regular and substantial use of the land by the general public for recreational or educational use;
- E. The importance of the land in preserving a local or regional landscape or resource that attracts tourism or commerce to the area;
- F. The likelihood that the preservation of the land as undeveloped open space will provide economic benefit to the town by limiting municipal expenditures required to service development;
- G. Whether the land is included in an area designated as open space land or resource protection land on a comprehensive plan or in a zoning ordinance or on a zoning map as finally adopted;
- H. The existence of a conservation easement, other legally enforceable restriction, or ownership by a nonprofit entity committed to conservation of the property that will permanently preserve the land in its natural, scenic or open character;
- I. The proximity of other private or public conservation lands protected by permanent easement or ownership by governmental or nonprofit entities committed to conservation of the property;
- J. The likelihood that protection of the land will contribute to the ecological viability of a local, state or national park, nature preserve, wildlife refuge, wilderness area or similar protected area;
- K. The existence on the land of habitat for rare, endangered or threatened species of animals, fish or plants, or of a high quality example of a terrestrial or aquatic community;
- L. The consistency of the proposed open space use with public programs for scenic preservation, wildlife preservation, historic preservation, game management or recreation in the region;
- M. The identification of the land or of outstanding natural resources on the land by a legislatively mandated program, on the state, local or federal level, as particular areas, parcels, land types or natural resources for protection, including, but not limited to, the register of critical areas under Title 12, section 544-B; the laws governing wildlife sanctuaries and management areas under Title 12, section 10109, subsection 1 and sections 12706 and 12708; the laws governing the State's rivers under Title 12, chapter 200; the natural resource

protection laws under Title 38, chapter 3, subchapter 1, article 5A; and the Maine Coastal Barrier Resources Systems under Title 38, chapter 21;

N. Whether the land contains historic or archeological resources listed in the National Register of Historic Places or is determined eligible for such a listing by the Maine Historic Preservation Commission, either in its own right or as contributing to the significance of an adjacent historic or archeological resource listed, or eligible to be listed, in the National Register of Historic Places; or

O. Whether there is a written management agreement between the landowner and the Department of Inland Fisheries and Wildlife or the Department of Agriculture, Conservation and Forestry as described in section 1102, subsection 10.

If a parcel of land for which the owner or owners are seeking classification as open space contains any principal or accessory structures or any substantial improvements that are inconsistent with the preservation of the land as open space, the owner or owners in their schedule shall exclude from their application for classification as open space a parcel of land containing those buildings or improvements at least equivalent in size to the state minimum lot size as prescribed by Title 12, section 4807-A or by the zoning ordinances or zoning map pertaining to the area in which the land is located, whichever is larger. For the purposes of this section, if any of the buildings or improvements are located within shoreland areas as defined in Title 38, chapter 3, subchapter 1, article 2-B, the excluded parcel must include the minimum shoreland frontage required by the applicable minimum lot standards under the minimum guidelines established pursuant to Title 38, chapter 3, subchapter 1, article 2-B or by the zoning ordinance for the area in which the land is located, whichever is larger. The shoreland frontage requirement is waived to the extent that the affected frontage is part of a contiguous shore path or a beach for which there is or will be, once classified, regular and substantial use by the public. The shoreland frontage requirement may be waived at the discretion of the legislative body of the municipality if it determines that a public benefit will be served by preventing future development near the shore or by securing access for the public on the particular shoreland area that would otherwise be excluded from classification.

4. Investigation. The assessor shall notify the landowner, on or before June 1st following receipt of a signed schedule meeting the requirements of this section, whether the application has been accepted or denied. If the application is denied, the assessor shall state the reasons for the denial and provide the landowner an opportunity to amend the schedule to conform to the requirements of this subchapter.

The assessor or the assessor's duly authorized representative may enter and examine lands subject to taxation under this subchapter and may examine any information submitted by the owner or owners.

The assessor may require the owner to respond within 60 days of the receipt of notice in writing by certified mail, return receipt requested, to written questions or interrogatories the assessor considers necessary to obtain material information about those lands. If the assessor determines that the required material information regarding those lands cannot reasonably be obtained through written questions or interrogatories, the assessor may require the owner, upon notice in writing by certified mail, return receipt requested, or by another method that provides actual notice, to appear before the assessor at a reasonable time and place designated by the assessor and answer questions or interrogatories the assessor considers necessary to obtain material information about those lands.

If the owner of a parcel of land subject to taxation under this subchapter fails to submit the schedules required by this section, fails to respond to written questions or interrogatories of the assessor as provided in this subsection or fails to appear before the assessor to respond to questions or interrogatories as provided in this subsection, that owner or owners are deemed to have waived all rights of appeal.

5. Owner obligation. It is the obligation of the owner to report to the assessor any change of use or change of classification of land subject to taxation under this subchapter by the end of the tax year in which the change occurs and to report to the assessor on or before April 1st of every 5th year the gross income realized in each of the previous 5 years from acreage classified as farmland.

If the owner fails to report to the assessor as required by this subsection, the assessor shall assess those taxes that should have been paid, shall assess the penalty provided in section 1112 and shall assess an additional penalty equal to 25% of the penalty provided in section 1112. The assessor may waive the additional penalty for cause.

6. Recertification. The assessor shall determine annually whether any classified land continues to meet the requirements of this subchapter. Each year the assessor shall recertify any classifications made under this subchapter. If any classified land no longer meets the requirements of this subchapter, the assessor shall either remove the classification or, if he deems it appropriate, allow the land to have a provisional classification as detailed in subsection 2.

7. Repealed. Laws 2009, c. 434, § 18.

## § 1110. Reclassification

Land subject to taxes under this subchapter may be reclassified as to land classification by the municipal assessor, chief assessor or State Tax Assessor upon application of the owner with a proper showing of the reasons justifying that reclassification or upon the initiative of the respective municipal assessor, chief assessor or State Tax Assessor where the facts justify the same. In the event that the municipal assessor, chief assessor or State Tax Assessor determines, upon his own initiative, to reclassify land previously classified under this subchapter, he shall provide to the owner or owners of the land by certified mail, return receipt requested, notice of his intention to reclassify that land and the reasons therefor:

## § 1112. Recapture penalty

Any change in use disqualifying land for classification under this subchapter shall cause a penalty to be assessed by the assessors of the municipality in which the land is located, or by the State Tax Assessor if the land is not within a municipality, in addition to the annual tax in the year of disqualification except when the change is occasioned by a transfer resulting from the exercise or the threatened exercise of the power of eminent domain.

For land that has been classified as farmland under this subchapter, the penalty is the recapture of the taxes that would have been paid on the land for the past 5 years if it had not been classified under this subchapter, less all taxes that were actually paid during those 5 years and interest at the rate set by the town during those 5 years on delinquent taxes. An owner of farmland that has been classified under this subchapter for 5 full years or more may pay any penalty owed under this paragraph in up to 5 equal annual installments with interest at the rate set by the town to begin 60 days after the date of assessment. Notwithstanding section 943, for an owner paying a penalty under this procedure, the period during which the tax lien mortgage, including interest and costs, must be paid to avoid foreclosure and expiration of the right of redemption is 48 months from the date of the filing of the tax lien certificate instead of 18 months.

A penalty may not be assessed at the time of a change of use from the farmland classification of land subject to taxation under this subchapter to the open space classification of land subject to taxation under this subchapter. A penalty may not be assessed upon the withdrawal of open space land from taxation under this subchapter if the owner applies for the land to be classified as and the land is accepted for classification as timberland under subchapter 2-A. There also is no penalty imposed when land classified as timberland is accepted for classification as open space land. A penalty may not be assessed upon withdrawal of open space land from taxation under this subchapter if the owner applies for the land to be classified as and the land is accepted for classification as farmland under this subchapter. A penalty may not be assessed upon withdrawal of land enrolled under the Maine Tree Growth Tax Law if the owner applies for the land to be classified as and the land is accepted for classification as farmland under this chapter. The recapture penalty for withdrawal from farmland classification within 10 years of a transfer from either open space tax classification or timberland tax classification is the same imposed on withdrawal from the prior tax classification, open space or tree growth.

The recapture penalty for withdrawal from farmland classification more than 10 years after such a transfer will be the regular farmland recapture penalty provided for in this section. In the event a penalty is later assessed under subchapter 2-A, the period of time that the land was taxed as farmland or as open space land under this subchapter must be included for purposes of establishing the amount of the penalty. The recapture penalty for withdrawal from open space classification within 10 years of a transfer from tree growth classification occurring on or after August 1, 2012, is the same that would be imposed if the land were being withdrawn from the tree growth classification. The recapture penalty for withdrawal from open space classification more than 10 years after such a transfer will be the open space recapture penalty provided for in this section.

If land is withdrawn from classification under this subchapter, any penalty assessed may be considered for abatement pursuant to the procedures incorporated in subchapter VIII.

For land classified as open space under this subchapter, the penalty is the same as that imposed for withdrawal from tree growth classification in section 581 and may be assessed and collected as a supplemental assessment in accordance with section 713-B.

#### **§ 1114. Application**

No person can apply for classification for more than an aggregate total of 15,000 acres under this subchapter. The classification of farmland or open space land hereunder shall continue until the municipal assessor, or State Tax Assessor in the unorganized territory, determine that the land no longer meets the requirements of such classification.

#### **§ 1115. Transfer of portion of parcel of land**

Transfer of a portion of a parcel of farmland subject to taxation under this subchapter does not affect the taxation under this subchapter of the resulting parcels unless they do not meet the minimum acreage requirements of this subchapter. Transfer of a portion of a parcel of open space land subject to taxation under this subchapter does not affect the taxation under this subchapter of the resulting parcels unless either or both of the parcels no longer provide a public benefit in one of the areas enumerated in section 1102, subsection 6. Each resulting parcel must be taxed to the owners under this subchapter until it is withdrawn from taxation under this subchapter, in which case the penalties provided in section 1112 apply only to the owner of that parcel. If the transfer of a portion of a parcel of farmland subject to taxation under this subchapter results in the creation of a parcel that is less than the minimum acreage required by this subchapter or if the transfer of a portion of a parcel of open space land subject to taxation under this subchapter results in the creation of a parcel that no longer provides a public benefit in one of the areas enumerated in section 1102, subsection 6, that parcel is deemed to have been withdrawn from taxation under this subchapter as a result of the transfer and is subject to the penalties provided in section 1112.

## **§ 1118. Appeals and abatements**

The denial of an application or an assessment made under this subchapter is subject to the abatement procedures provided by section 841. Appeal from a decision rendered under section 841 or a recommended current use value established under section 1106-A must be to the State Board of Property Tax Review.

## **§ 1119. Valuation guidelines**

By December 31, 2000 and biennially thereafter, the Department of Agriculture, Conservation and Forestry working with the Bureau of Revenue Services, representatives of municipal assessors and farmers shall prepare guidelines to assist local assessors in the valuation of farmland. The department shall also deliver these guidelines in training sessions for local assessors throughout the State. These guidelines must include recommended values for cropland, orchard land, pastureland and horticultural land, differentiated by region where justified. Any variation in assessment of farmland from the recommended values must be substantiated by the local assessor within the parameters allowed within this subchapter.
